**“For every technical problem
there is a solution”**

ABOUT OTM-PROJECTADVIES

OTM stands for Measuring, Drawing and Making. Our expertise and experience lies in the design and manufacture of customized solutions. Our (variable) cable clamps are a good example of this. In the market of network companies (telecom and energy) our cable clamps have become a household name, where they are called the OTM clamps.

Engineering runs through our blood. Decades of experience are preceded by our motivation to work for you. We provide services such as advising, designing and delivering in metalworking, injection moulding, and machining. In addition, we offer solutions with regard to burglary protection that meet the highest quality standards.

OTM is a member of the Metal Union and acts accordingly to their terms and conditions. In addition we are also a member of Dutch Power and also actively involved in Corporate Social Responsibility (CSR).

OUR TEAM

At our office in Duiven we work enthusiastically on the (further) development of our (new) products and strive to provide an optimal customer experience. Our organization has an open culture with a lot of freedom in how you do your work. After all, the result counts.

Our motto is: 'Individualism does not exist. Together we make a difference.'

During the year we invest in the training of new professionals and the team is often supplemented with motivated future talents.

ENGINEERING

We design and manufacture high quality customized solutions for our customers. We support our customers from engineering to installation and/or delivery in the areas of machining, construction, injection moulding and custom designed OTM products. Our customers get all the exclusive attention from design to delivery.

Machining

Brass adhesive anchor

Stainless steel adapter

Stainless steel prism holder with magnetic base

Construction

Train track alignment

Sample Tubes

Stainless steel sheet metal examples

Injection Moulding

Medicine container

Flame retardant paddings

Plastic cable splitter

OTM CABLE CLAMPS

The cable clamps are maintenance-free, corrosion-resistant, flame-retardant, weather- and UV-resistant. The A2 304 consists of a stainless steel clamping bracket and bolt and is suitable for normal conditions. For highly aggressive environmental conditions, such as a maritime climate, the cable clamps are also available in stainless steel A4 316.

OTM energy cable clamps and accessories

Variable cable clamp

Variable cable clamp

Variable cable clamp

Brass nickel plated cable lug

Brass connector e.g. for smart meter

Cable connector

Stainless steel cable bracket

Stainless steel ground terminal

OTM telecom cable clamps and accessories

Telecom cable clamp

Telecom cable clamp

Telecom cable clamp

Stainless steel grounding cable

Adjustable stainless steel pole clamp

Universal stainless steel adapter

BURGLARY PROTECTION
